Teacher Sign: _____

SECTION A: MCQS

1. Universal Human Values (UHV) are termed 'universal' because they are relevant to all human beings regardless of which of the following? [2 Marks]
 - a) Geographic location or preferred hobbies
 - b) Nationality, culture, religion, or personal beliefs
 - c) Economic status or political affiliation
 - d) Educational background or professional achievements
2. Which of the following is explicitly listed as a Fundamental Universal Value in the provided text? [2 Marks]
 - a) Innovation
 - b) Righteous Conduct
 - c) Wealth Accumulation
 - d) Competitive Spirit
3. One of the stated purposes of studying Universal Human Values is to promote living in harmony with nature. Which specific purpose does this align with? [2 Marks]
 - a) Self-Understanding
 - b) Harmony in Relationships
 - c) Social Contribution
 - d) Environmental Sustainability
4. According to the text, 'Right Understanding' in Universal Human Values is a key pillar that refers to having the correct knowledge about which aspects through self-exploration and rational inquiry? [2 Marks]
 - a) Only the physical facilities required for survival
 - b) The self, relationships, society, and nature
 - c) Historical events and cultural traditions
 - d) Economic systems and political ideologies
5. The process of developing Right Understanding involves two key steps: Natural Acceptance and Experiential Validation. What is the nature of Experiential Validation in this context? [2 Marks]
 - a) Accepting external authoritative statements without question.
 - b) Checking if our thoughts and actions lead to lasting happiness and harmony.
 - c) Relying solely on inherited beliefs and customs.
 - d) Memorizing theoretical frameworks without personal application.
6. What is the primary distinction between the 'Self (I)' and the 'Body' concerning their needs, as described in the

Difference Between Self and Body Needs table?

[2 Marks]

- a) The Self needs are quantitative and temporary, while the Body needs are qualitative and continuous.
- b) The Self needs are qualitative and continuous, while the Body needs are quantitative and temporary.
- c) The Self needs are always external, whereas the Body needs are always internal.
- d) The Self needs are fulfilled through physical facilities, while the Body needs are fulfilled through understanding.

7. Why is Self-Exploration presented as the core method for Value Education, according to the text?

[2 Marks]

- a) It is a quick way to impose external values on individuals.
- b) It helps avoid blind beliefs and promotes personal realization rather than just theoretical learning.
- c) It is primarily a historical study of past ethical systems.
- d) It provides a rigid set of rules for social conformity.

8. How does 'Prosperity (Samriddhi)' differ from 'Continuous Happiness (Su-kha)' according to the text's key points?

[2 Marks]

- a) Prosperity is primarily related to inner contentment, while happiness is about material possessions.
- b) Prosperity is achieved through right understanding, while happiness is achieved through right identification of needs.
- c) Prosperity is the feeling of having enough physical facilities, while happiness is a state of inner peace and satisfaction.
- d) Prosperity is continuous in nature, while happiness is limited and quantifiable.

9. The UHV framework proposes a holistic method to fulfill the basic human aspirations of Continuous Happiness and Prosperity. This method primarily involves which two fundamental approaches?

[2 Marks]

- a) Spiritual rituals and economic competition
- b) Global travel and diverse cultural experiences
- c) Right Understanding and Right Living
- d) Technological advancement and political reform

10. The "Need for UHV in Today's World" section lists several contemporary challenges. Which challenge directly illustrates the breakdown of fundamental human connections and shared understanding, which UHV aims to address?

[2 Marks]

- a) Environmental degradation due to unsustainable practices.
- b) Rising stress and conflict in personal and professional life, and breakdown of family and community structures.
- c) The rapid pace of technological innovation.
- d) The increasing complexity of global financial markets.
