SECTION A: MCQs

1. According to the text, what is the primary reference for Universal Human Values (UHV)? A) Principles for academic excellence. B) Qualities for economic growth. C) Fundamental principles and qualities essential for human well-being and harmonious coexistence. D) Guidelines for political governance. [2 Marks]
2. List any four points highlighting the "Importance of Right Understanding" as described in the text. [5 Marks]
3. Detail any five of the "Key Focus Areas in UHV-based Value Education" as described in the text. [2 Marks]
4. Harmony with Nature: Recognizing interdependence with the environment; Promoting sustainable and eco-friendly living. [2 Marks]
5. Based on the "current scenario" section, summarize the global and India's situation regarding happiness and prosperity, including challenges and positives mentioned for India. Global Scenario: According to the World Happiness Report 2024, wealthy countries are not always the happiest. Countries like Finland, Denmark, and Iceland top the list, with social trust, mental well-being, and strong relationships identified as key factors. New studies (like the Global Flourishing Study) show that social bonds and life purpose matter more than income, and developed countries like the US and UK rank lower in emotional well-being due to weak family/community ties. India's Current Scenario: India ranked 126th in 2023 and improved to 118th in the 2024 World Happiness Index. Many Indians feel less happy despite economic growth. Challenges: Include mental health issues (especially among youth), workplace stress and burnout, urban isolation despite digital connectivity, and rising materialism but a lack of contentment. Positives: Strong family values and cultural bonding still exist; states like Kerala and Andhra Pradesh score better in the Human Development Index (HDI); and there is an increasing focus on wellness, mindfulness, and value education. [10 Marks]
